INDEPENDENT AUDITOR'S REPORT

Board of Trustees MiraCosta Community College District Oceanside, California

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and the aggregate remaining fund information of MiraCosta Community College District (the District) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the 2016-2017 *Contracted District Audit Manual*, issued by the California Community Colleges Chancellor's Office. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate remaining fund information of the District as of June 30, 2017, and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter - Change in Accounting Principles

As discussed in Notes 2 and 18 to the financial statements, in 2017, the District adopted new accounting guidance, Governmental Accounting Standards Board (GASB) Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require the Management's Discussion and Analysis on pages 5 through 17 and other required supplementary schedules on pages 64 through 69 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying supplementary information listed in the Table of Contents, including the Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and other supplementary information as listed in the Table of Contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 15, 2017, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

INTRODUCTION

The following discussion and analysis provides an overview of the financial position and activities of MiraCosta Community College District (the District) for the year ended June 30, 2017. This discussion has been prepared by management and should be read in conjunction with the financial statements and notes thereto which follow this section.

The District was required to implement the reporting standards of Governmental Accounting Standards Board (GASB) Statements No. 34 and No. 35 beginning with fiscal year 2002-2003, using the Business-Type Activity (BTA) model. The California Community College Chancellor's Office, through its Fiscal Standards and Accountability Committee, recommended that all community college districts implement the new reporting standards under the BTA model. To comply with the recommendation of the Chancellor's Office and to report in a manner consistent with other California community college districts, the District has adopted the BTA reporting model for these financial statements.

MiraCosta Community College District is a public two-year community college. The District operates two campuses and two centers. The Oceanside Campus is located on a 121-acre site in Oceanside, California. The District also operates the 42-acre San Elijo Campus in Cardiff, a 7.6-acre Community Learning Center in Oceanside, and a new 22,627-square-foot Technology Career Institute and North San Diego Small Business Development Center in Carlsbad. MiraCosta students may choose from several associate degree and certificate programs or complete courses toward the first two years of a bachelor's degree program.

FINANCIAL HIGHLIGHTS

As required by the GASB Statements No. 34 and No. 35 reporting model, this report consists of three basic financial statements that provide information on the District's governmental activities as a whole: the Statement of Net Position; the Statement of Revenues, Expenses, and Changes in Net Position; and the Statement of Cash Flows.

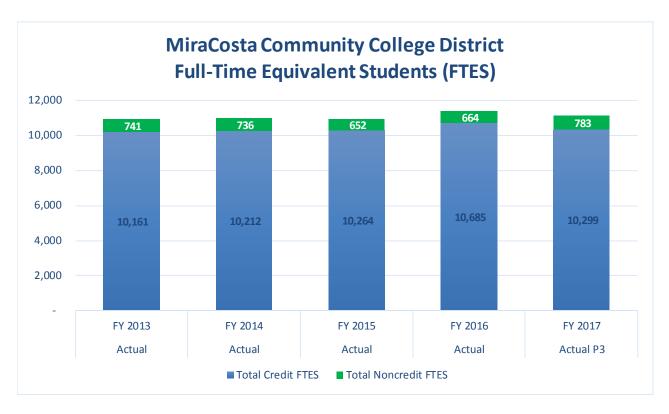

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2017

Full-Time Equivalent Student Growth

During 2016-2017, total full-time equivalent students (FTES) decreased 3.6 percent from 11,348 to 11,082 for credit and noncredit students. The trend over the last two years has been over 11,000 FTES, while the prior three years were at 10,900.

Full-Time Equivalent Students	Actual	Actual	Actual	Actual	Actual P3
FTES	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017
Total Credit FTES	10,161	10,212	10,264	10,685	10,299
Total Noncredit FTES	741	736	652	664	783
Total FTES	10,901	10,948	10,915	11,348	11,082
Total FTES Annual Change from Prior Year	376	47	(33)	433	(266)
Total Credit FTES % Change year to year	4.4%	0.5%	0.5%	4.1%	-3.6%
Total Noncredit FTES % Change year to year	-6.2%	-0.7%	-11.4%	1.8%	18.0%
Total FTES % Change year to year	3.6%	0.4%	-0.3%	4.0%	-2.3%

P3 Report 7/12/2017

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2017

Statement of Net Position

The Statement of Net Position presents the assets, liabilities, and net position of the District as of the end of the fiscal year. The statement is prepared using the accrual basis of accounting, which is similar to the accounting basis used by most private-sector organizations. The Statement of Net Position is a point of time financial statement whose purpose is to present to the readers a fiscal snapshot of the District. The Statement of Net Position presents end-of-year data concerning assets (current and non-current), liabilities (current and non-current), and net position (assets minus liabilities).

From the data presented, readers of the Statement of Net Position are able to determine the assets available to continue the operations of the District. Readers are also able to determine how much the District owes vendors and employees. Finally, the Statement of Net Position provides a picture of the net position and their availability for expenditure by the District.

The difference between total assets and total liabilities (net position) is one indicator of the current financial condition of the District; the change in net position is an indicator of whether the overall financial condition has improved or worsened during the year. Assets and liabilities are generally measured using current values. One notable exception is capital assets, which are stated at historical cost less an allocation for depreciation expense.

The Net Position is divided into three major categories. The first category, invested in capital assets, provides the equity amount in property, plant, and equipment owned by the District. The second category is expendable restricted net position; these net position are available for expenditure by the District, but must be spent for purposes as determined by external entities and/or donors that have placed time or purpose restrictions on the use of the assets. The final category is unrestricted net position that is available to the District for any lawful purpose of the District.

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2017

A Statement of Net Position as of June 30, 2017 and 2016, is summarized below:

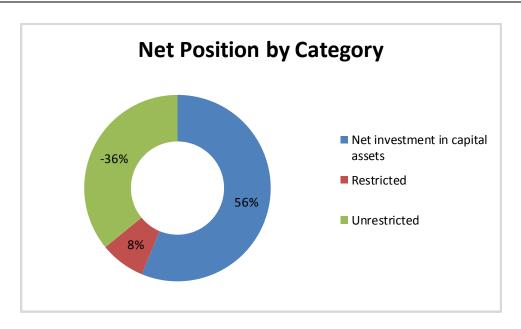

(Amounts in thousands)

						Percentage

Total Net Position	\$	44,104	\$	39,885	\$ 4,219	10.58%

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2017

- Cash and investments increased \$451 thousand over 2016. The fiscal year-end cash and investment balances are the results of the revenue inflows and expense outflows of cash as noted in the Statement of Cash Flows on page 20 was relatively flat from prior year's ending balance with a net change of 0.9 percent. Increase from property tax revenues and other sources were offset with increases in operating expenses and capital expenses.
- The accounts receivable balance includes receivables for categorical programs and/or grants, lottery proceeds, and 4th quarter interest. Accounts receivable decreased \$435 thousand from prior year due to the timing of actual cash received after the year-end cut off for June revenues.
- Accounts payable and accrued liabilities include June payroll expenses, vendor payables including construction payments for goods and services received prior to June 30, but not paid until the following fiscal year. The decrease of \$2.1 million from the prior year is from both volume and timing of invoices from June paid in July.
- Unearned revenue consists of revenue received prior to being earned and includes enrollment fees for summer and fall, State categorical aid, and scheduled maintenance funds. Unearned revenue increased by \$2.6 million from the prior year.
- The current portion of long-term obligations reflects the amounts due within one year on the payments for the lease revenue bonds, compensated absences, and capital lease payment. This current portion decreased by \$42 thousand.
- The noncurrent liabilities increased by \$15.3 million. The non-pension long-term obligation decreased by \$1.1 million from the payment of the lease revenue bonds. The District implemented GASB Statement No. 68 and No. 71; thus, the proportionate share of the aggregate net pension (California State Teachers' Retirement System (CalSTRS) and California Public Employees' Retirement System (CalPERS) obligation was \$101.1 million, an increase of \$16.4 million (see Note 15) from the prior year comprised of \$5.5 million from CalSTRS and \$10.8 million from CALPERS. Actuarial studies were performed by the respective plans where the District's proportionate share for CALSTRS were 0.0738 percent (was 0.0805 percent in June 2015) and 0.2097 percent (was 0.2074 percent in June 2015) for CalPERS.
- Net position include capital assets, net of related debt, debt service and capital projects funds, restricted assets for educational programs, and unrestricted assets. Total net position increased \$4.2 million.

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2017

Statement of Revenues, Expenses, and Changes in Net Position

Change in total net position as presented on the Statement of Net Position is based on the activity presented in the Statement of Revenues, Expenses, and Changes in Net Position. The purpose of this statement is to present the operating and nonoperating revenues earned, whether received or not, by the District, the operating and nonoperating expenses incurred, whether paid or not, by the District, and any other revenues, expenses, gains and/or losses earned or incurred by the District. Thus, this Statement presents the District's results of operations.

Generally, operating revenues are earned for providing goods and services to the various customers and constituencies of the District. Operating expenses are those expenses incurred to acquire or produce the goods and services provided in return for the operating revenues and to fulfill the mission of the District. Nonoperating revenues are those received or pledged for which goods and services are not provided; for example, State appropriations are nonoperating because they are provided by the legislature to the District without the legislature directly receiving commensurate goods and services for those revenues.

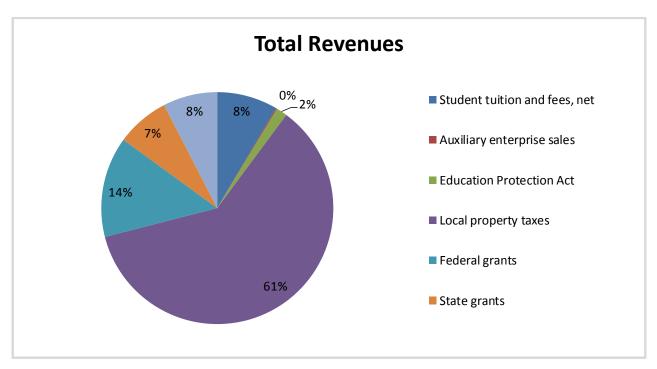

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2017

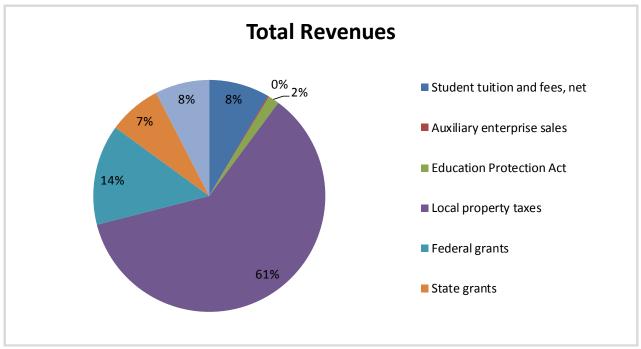

The Statement of Revenues, Expenses, and Changes in Net Position for the years ended June 30, 2017 and 2016, is summarized below:

(Amounts in thousands)	2017		2017		Change	Percentage Change
Operating Revenues		2017	-	2016	Change	Change
Tuition and fees	\$	13,052	\$	13,154	\$ (102)	-0.78%
Auxiliary enterprise sales and charges	Ψ	250	Ψ	286	(36)	-12.59%
Total Operating Revenues		13,302		13,440	$\frac{(38)}{(138)}$	-1.03%
Total Operating Revenues		13,302		13,440	(130)	-1.0370
Total Operating Expenses		149,103		139,485	9,618	6.90%
Operating Loss		(135,801)		(126,045)	(9,756)	7.74%
Nonoperating Revenues (Expenses)						
Grants and contracts		33,070		30,805	2,265	7.35%
Local property taxes		93,930		88,404	5,526	6.25%
State and other revenues		10,229		10,376	(147)	-1.42%

Transfers to fiduciary funds		(688)		(117)	(571)	488.03%
Other nonoperating revenues		1,399		3,931	(2,532)	-64.41%
Total Nonoperating Revenue (Expenses)		138,030		133,209	4,821	3.62%
Other Revenues and Gains						
State revenues, capital		1,544		270	1,274	471.85%
Local revenues, capital		439		1	438	43800.00%
Gain on disposal of capital assets		7		3	4	-133.33%
Total Other Revenues and Gains		1,990		274	1,716	626.28%
Change in Net Position	\$	4,219	\$	7,438	\$ (3,219)	-43.28%

- Tuition and fees are generated by the resident, non-resident, and foreign fees paid by students attending MiraCosta College, including fees such as health fees, parking fees, community services classes, and other related fees. Tuition and fees decreased by \$102 thousand.
- Total operating expenses includes employee salaries and benefits, supplies, operating expenses, and student financial aid. Operating expenses increased by \$9.6 million, primarily from \$7.8 million salaries and benefits due to new faculty hires, annual salary and benefit increases; \$1.8 million increases were from supplies, services, equipment, student financial aid, and depreciation expenses.
- Grants and contracts revenues increased \$2.3 million, primarily from higher State categorical programs.
- Local property taxes increased \$5.5 million, from higher assessed property values from prior year.
- The change in total nonoperating revenue increase of \$4.8 million was primarily from the increase in local property taxes and grants and contracts.

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2017

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2017

Expenses are reported by their operating categories as follows:

(Amounts in thousands)

	2017	2016	C	hange
Operating Expenses		 _		
Salaries	\$ 77,170	\$ 73,210	\$	3,960
Employee benefits	28,170	24,350		3,820
Supplies, materials, and other operating expenses				
and services	20,483	19,275		1,208
Student financial aid	19,765	19,183		582
Depreciation	3,515	3,467		48
Total Operating Expenses	\$ 149,103	\$ 139,485	\$	9,618

Salaries and benefits increased \$7.8 million. This is primarily due to the following: step and column increases; hiring of full-time positions, and CalSTRS/CalPERS rate increases. Supplies and other services increased primarily from higher activities in contract services (advertisement, legal services).

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2017

In accordance with requirements set forth by the California Community Colleges Chancellor's Office, the District reports operating expenses by object code. Operating expenses by functional classification for all governmental funds, including student financial aid, are as follows:

(Amounts in thousands)			Instructional Noninstructional Salaries and Salaries and Benefits Benefits		Ma Oth	Supplies, aterial, and er Expenses d Services

Statement of Cash Flows

The Statement of Cash Flows provides information about cash receipts and cash payments during the fiscal year. This Statement also helps users assess the District's ability to generate positive cash flows, meet obligations as they come due and the need for external financing.

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2017

The Statement of Cash Flows is divided into five parts. The first part reflects operating cash flows and shows the net cash used by the operating activities of the District. The second part details cash received for non-operating, non-investing, and non-capital financing purposes. The third part shows cash flows from capital and related financing activities. This part deals with the cash used for the acquisition and construction of capital and related items. The fourth part provides information from investing activities and the amount of interest received. The last section reconciles the net cash used by operating activities to the operating loss reflected on the Statement of Revenues, Expenses, and Changes in Net Position.

The Statement of Cash Flows for the year ended June 30, 2017 and 2016, is summarized below:

(Amounts in thousands)

	 2017	2016	(Change
Cash Provided by (Used in)	 _	 _		
Operating activities	\$ (130,586)	\$ (125,369)	\$	(5,217)
Noncapital financing activities	140,101	134,849		5,252
Capital financing activities	(9,468)	(6,290)		(3,178)
Investing activities	 404	218		186
Net Change in Cash	451	3,408		(2,957)
Cash, Beginning of Year	47,735	44,327		3,408
Cash, End of Year	\$ 48,186	\$ 47,735	\$	451

A detailed Statement of Cash Flows for the year ended June 30, 2017, is included in the Basic Financial Statements on pages 20 and 21 of this report.

- Cash provided in operating activities are from tuition and fees and the uses of cash are for payments to scholarship and grants, payments to vendors, and payments to or on behalf of employees. Net change in cash from operating activities increased by \$5.2 million.
- From noncapital financing activities, property tax revenue account for 67 percent while grants and contracts account for 25 percent.
- Capital financing activities includes payment of debt services expenses and the purchase of capital assets (building improvements, construction in progress, equipment, etc.).
- Cash from investing activities is mainly interest earned on cash in bank and cash invested through the San Diego County pool. The increase from the prior year is \$186 thousand.

DISTRICT'S FIDUCIARY RESPONSIBILITY

The District is the trustee, or fiduciary, for certain amounts held on behalf of students, clubs, and donors for student loans and scholarships. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2017

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

- As of June 30, 2017, the District had \$99.7 million invested in capital assets net of accumulated depreciation. Total capital assets consist of land, infrastructure, buildings and building improvements, construction in progress, vehicles, data processing equipment, and other office equipment. Capital assets increased by \$4.2 million during 2016-2017, and depreciation expense of approximately \$3.5 million was recorded for the fiscal year, an increase of \$48 thousand.
- Capital additions and deductions of construction in progress comprise costs associated with replacement and renovation of existing facilities.

Note 8 in the financial statements provides additional information on capital assets. A summary of capital assets, net of depreciation, is presented below:

(Amounts in thousands)

	2017	2016	(Change
Land and construction in progress	\$ 8,371	\$ 9,789	\$	(1,418)
Buildings and improvements	87,212	81,559		5,653
Furniture and equipment	4,100	4,134		(34)
Net Capital Assets	\$ 99,683	\$ 95,482	\$	4,201

Debt

- At June 30, 2017, the District had \$12.3 million in debt in revenue bonds payable which reflects a decrease of \$1.1 million from the annual payments of the bond debts, which are the Lease Revenue Bonds from 2010 and 2015.
- Compensated absences and load banking increased \$81 thousand from the prior year.
- At June 30, 2017, the District had paid in full the debt for the capital lease agreement with SunTrust Corporation for the debt financing of the energy efficiency projects approved by the Board in December 2006.
- The District implemented GASB Statement No. 68 and No.71; thus, the proportionate share of the aggregate net pension (CalSTRS and CalPERS) obligation was \$101.1 million, an increase of \$16.4 million (see Note 15). Actuarial studies were performed by CalSTRS and CalPERS, where the District's proportionate share were 0.0738 percent for CalSTRS and 0.2097 percent for CalPERS.

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2017

Note 11 in the financial statements provides additional information on long-term obligations. A summary of long-term obligation is presented below:

(Amounts in thousands)

	 2017	2016	 Change
Revenue bonds payable	\$ 12,297	\$ 13,390	\$ (1,093)
Compensated absences and load banking	3,247	3,166	81
Capital leases	-	126	(126)
Aggregate net pension obligation	101,115	84,758	 16,357
Total Long-Term Obligations	\$ 116,659	\$ 101,440	\$ 15,219

ECONOMIC FACTORS THAT MAY AFFECT THE FUTURE

The District's economic condition is directly affected by the economic well-being of the State of California. The California Community College Chancellor's Office, The California Department of Finance, and the California Legislative Analyst's Office (LAO) have predicted a 5.5 percent steady growth in California's economic health. According to the November 2016, *California's Fiscal Outlook*, issued by the LAO, the State budget reflects continued improvement in the State's finances. Those improvements are expected to be seen in the steady growth of property assessed values. State funding for community colleges is largely based upon the funding model designed by Prop 98, which establishes a minimum funding level for education. The District is unique in California in that it is primarily funded by property taxes. An increase in property taxes will not only have a positive impact on other educational institutions statewide, but also on the District. The LAO's forecast further supports the District's multi-year financial plans and projections.

The District is not aware of any currently known facts, decisions, or conditions that are expected to have a significant negative impact on the financial position or operations during fiscal year 2017-2018. Beyond those unknown variables having a global effect on virtually all types of business operations, the District remains confident in the current economic climate. Management will continue to provide information to the Board of Trustees and community on the financial condition of the District and to monitor resources to maintain the District's ability to react to internal and external issues if and when they arise.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, students, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need any additional financial information, contact the Vice President of Business and Administrative Services, Charlie Ng, at MiraCosta Community College District, One Barnard Drive, Oceanside, CA 92056-3899.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

NOTE 1 - ORGANIZATION

The MiraCosta Community College District (the District) was established in 1934 as a political subdivision of the State of California and is a comprehensive, public, two-year institution offering educational services to residents of the surrounding area. The District operates under a locally elected seven-member Board of Trustees form of government, which establishes the policies and procedures by which the District operates. The Board must approve the annual budgets for the General Fund and capital project funds, but these budgets are managed at the department level. Currently, the District operates two campuses and one center. The main campus, MiraCosta College, is located on a 121-acre site in the city of Oceanside. The District also operates the 42-acre San Elijo campus in the city of Cardiff, a 7.6-acre Community Learning Center in Oceanside, and a 22,627-square-foot Technology Career Institute and North San Diego Small Business Development Center in Carlsbad. While the District is a political subdivision of the State of California, it is legally separate and is independent of other State and local governments, and it is not a component unit of the State in accordance with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 61. The District is classified as a Public Educational Institution under Internal Revenue Code Section 115 and is, therefore, exempt from Federal taxes.

Financial Reporting Entity

The District is the level of government primarily accountable for activities related to public education. The governing authority consists of elected officials who, together, constitute the Board of Trustees.

MiraCosta Community College District Retiree Health Benefit Program Trust

MiraCosta Community College District Retiree Health Benefit Program Trust (the Trust) is an irrevocable governmental trust pursuant to Section 115 of the IRC for the purpose of funding certain postemployment benefits other than pensions. The Trust is administered by the MiraCosta Community College District Retirement Board of Authority as directed by the investment alternative choice selected by the District. The District retains the responsibility to oversee the management of the Trust, including the requirement that investments and assets held within the Trust continually adhere to the requirements of the California Government Code Section 53600.5 which specifies that the trustee's primary role is to preserve capital, to maintain investment liquidity, and to protect investment yield. As such, the District acts as the fiduciary of the Trust. The financial activity of the Trust has been discretely presented. Separate financial statements are not prepared for the Trust.

The District considered its financial and operational relationships with potential component units under the reporting entity definition of GASB Statement No. 14, *The Financial Reporting Entity*. The basic, but not the only, criterion for including another organization in the District's reporting entity for financial reports is the ability of the District's elected officials to exercise oversight responsibility over such agencies. Oversight responsibility implies that one entity is dependent on another and that the dependent unit should be reported as part of the other.

Oversight responsibility is derived from the District's power and includes, but is not limited to: financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

Based upon the requirements of GASB Statement No. 14, and as amended by GASB Statement No. 61, *Determining Whether Certain Organizations are Component Units*, certain organizations warrant inclusion as part of the financial reporting entity because of the nature and significance of their relationship with the District, including their ongoing financial support to the District or its other component units. A legally separate, tax-exempt organization should be reported as a component unit of the District if all of the following criteria are met:

- 1. The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the District, its component units, or its constituents.
- 2. The District, or its component units, is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization.
- 3. The economic resources received or held by an individual organization that the District, or its component units, is entitled to, or has the ability to otherwise access, are significant to the District.

Based upon the application of the criteria listed above, the following potential component unit has been excluded from the District's reporting entity:

MiraCosta College Foundation

The MiraCosta College Foundation (the Foundation) is a separate not-for-profit corporation. The Board of Directors is elected independent of any District Board of Trustee's appointments. The Foundation is responsible for approving its own budget and accounting and finance related activities.

The Foundation is not included as a Component Unit because the third criterion was not met; the economic resources received and held by the Foundation are not significant to the District.

Complete financial statements for the Foundation can be obtained from the Foundation's Business Office at One Barnard Drive, Oceanside, CA 92056.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

For financial reporting purposes, the District is considered a special-purpose government engaged only in business-type activities as defined by GASB Statements No. 34 and No. 35 as amended by GASB Statements No. 37, No. 38, and No. 39. This presentation provides a comprehensive entity-wide perspective of the District's assets, liabilities, activities, and cash flows and replaces the fund group perspective previously required. Accordingly, the District's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. The significant accounting policies followed by the District in preparing these financial statements are in accordance with accounting principles generally accepted in the United States of America as prescribed by GASB. Additionally, the District's policies comply with the California Community Colleges Chancellor's Office *Budget and Accounting Manual*. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All material intraagency and intra-fund transactions have been eliminated.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, and classified as operating revenues. These transactions are recorded on the accrual basis when the exchange takes place. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, operating revenues consist primarily of student fees and auxiliary activities through the bookstore and cafeteria.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include State apportionments, property taxes, certain Federal and State grants, entitlements, and donations. Property tax revenue is recognized in the fiscal year received. State apportionment revenue is earned based upon criteria set forth from the Community Colleges Chancellor's Office and includes reporting of full-time equivalent students (FTES) attendance. The corresponding apportionment revenue is recognized in the period the FTES are generated. Revenue from Federal and State grants and entitlements are recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements may include time and/or purpose requirements.

Operating expenses are costs incurred to provide instructional services including support costs, auxiliary services, and depreciation of capital assets. All other expenses not meeting this definition are reported as nonoperating. Expenses are recorded on the accrual basis as they are incurred, when goods are received, or services are rendered.

The financial statements are presented in accordance with the reporting model as prescribed in GASB Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*, and GASB Statement No. 35, *Basic Financial Statements and Management's Discussion and Analysis for Public Colleges and Universities*, as amended by GASB Statements No. 37, No. 38, and No. 39. The business-type activities model followed by the District requires the following components of the District's financial statements:

- Management's Discussion and Analysis
- Basic Financial Statements for the District as a whole including:
 - o Statement of Net Position Primary Government
 - o Statement of Revenues, Expenses, and Changes in Net Position Primary Government
 - o Statement of Cash Flows Primary Government
 - o Financial Statements for the Fiduciary Funds including:
 - Statement of Fiduciary Net Position
 - o Statement of Changes in Fiduciary Net Position
- Notes to the Financial Statements

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be unrestricted cash on hand, demand deposits, and short-term unrestricted investments with original maturities of three months or less from the date of acquisition. Cash and cash equivalents represent balances restricted by external sources such as grants and contracts or specifically restricted for the repayment of capital debt.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

Investments

Investments held at June 30, 2017, with original maturities greater than one year are stated at fair value. Fair value is estimated based on quoted market prices at year-end. All investments not required to be reported at fair value are stated at cost or amortized cost. Fair values of investments in County and State investment pools are determined by the program sponsor.

Accounts Receivable

Accounts receivable include amounts due from the Federal, State and/or local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the District's grants and contracts. Accounts receivable also consist of tuition and fee charges to students and auxiliary enterprise services provided to students, faculty, and staff, the majority of each residing in the State of California. The District sends outstanding receivables to the Chancellor's Office Tax Offset Program (COTOP) for collection and writes off the uncollected amounts annually.

Prepaid Expenses

Prepaid expenses represent payments made to vendors and others for services that will benefit periods beyond June 30.

Capital Assets and Depreciation

Capital assets are long-lived assets of the District as a whole and include land, construction in progress, buildings, leasehold improvements, and equipment. The District maintains an initial unit cost capitalization threshold of \$5,000 and an estimated useful life greater than one year. Assets are recorded at historical cost, or estimated historical cost, when purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Improvements to buildings and land that significantly increase the value or extend the useful life of the asset are capitalized; the costs of routine maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are charged as an operating expense in the year in which the expense was incurred. Major outlays for capital improvements are recorded as construction in progress as the projects are constructed.

Depreciation of capital assets is computed and recorded utilizing the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows: buildings, 25 to 50 years; improvements, 25 to 50 years; equipment, 4 to 10 years; vehicles, 5 to 10 years.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the entity-wide financial statements.

Debt Issuance Costs, Premiums, and Discounts

Lease revenue bond premiums and discounts, as well as issuance costs related to prepaid insurance costs, are amortized over the life of the bonds using the straight-line method.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position also reports deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The District reports deferred outflows of resources for pension related items.

In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The District reports deferred inflows of resources for pension related items.

Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions and pension expense, information about the fiduciary net position of the California State Teachers' Retirement System (CalSTRS) and the California Public Employees' Retirement System (CalPERS) plan for schools (the Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalSTRS and CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Member contributions are recognized in the period in which they are earned. Investments are reported at fair value.

Compensated Absences

Accumulated unpaid employee vacation benefits are accrued as a liability as the benefits are earned. The entire compensated absence liability is reported on the entity-wide financial statements. The current portion of unpaid compensated absences is recognized upon the occurrence of relevant events such as employee resignation and retirements that occur prior to year-end that have not yet been paid within the fund from which the employees who have accumulated the leave are paid. The District also participates in "load-banking" with eligible academic employees whereby the employee may teach extra courses in one period in exchange for time off in another period. The liability for this benefit is reported on the entity-wide financial statements.

Sick leave is accumulated without limit for each employee based upon negotiated contracts or Board policies and procedures. Leave with pay is provided when employees are absent for health reasons; however, the employees do not gain a vested right to accumulated sick leave. Employees are never paid for any sick leave balance at termination of employment or any other time. Therefore, the value of accumulated sick leave is not recognized as a liability in the District's financial statements. However, retirement credit for unused sick leave is applicable to all classified school members who retire after January 1, 1999. At retirement, each member will receive .004 year of service credit for each day of unused sick leave. Retirement credit for unused sick leave is applicable to all academic employees and is determined by dividing the number of unused sick days by the number of base service days required to complete the last school year, if employed full time.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

Unearned Revenue

Unearned revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the combined balance sheet and revenue is recognized. Unearned revenue includes (1) amounts received for tuition and fees prior to the end of the fiscal year that are related to the subsequent fiscal year and (2) amounts received from Federal and State grants received before the eligibility requirements are met.

Noncurrent Liabilities

Noncurrent liabilities include bonds payable, compensated absences, load banking, capital lease obligations, and the aggregate net pension obligation with maturities greater than one year.

Net Position

GASB Statements No. 34 and No. 35 report equity as "Net Position" and represent the difference between assets and liabilities. Net position is classified according to imposed restrictions or availability of assets for satisfaction of District obligations according to the following net asset categories:

Net Investment in Capital Assets consists of capital assets, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction, or improvement of those assets. To the extent debt has been incurred, but not yet expended for capital assets, such accounts are not included as a component of net investment in capital assets.

Restricted: Net position is reported as restricted when there are limitations imposed on their use, either through enabling legislation adopted by the District, or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted resources are available.

Unrestricted: Net position that is not subject to externally imposed constraints. Unrestricted net position may be designated for specific purposes by action of the Board of Trustees or may otherwise be limited by contractual agreements with outside parties.

When both restricted and unrestricted resources are available for use, it is the District's practice to use restricted resources first and the unrestricted resources when they are needed. The entity-wide financial statements report \$12,256,151 of restricted net position.

Operating Revenues and Expenses

Classification of Revenues - The District has classified its revenues as either operating or nonoperating. Certain significant revenue streams relied upon for operation are classified as nonoperating as defined by GASB Statements No. 34 and No. 35. Classifications are as follows:

Operating revenues - Operating revenues include activities that have the characteristics of exchange transactions, such as net of scholarship discounts and allowances, sales and services of auxiliary enterprises, net of scholarship discounts and allowances, and interest on institutional student loans.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

Nonoperating revenues - Nonoperating revenues include activities that have the characteristics of nonexchange transactions, such as property taxes, investment income, Federal, State, and local grants and contracts, gifts and contributions, and other revenue sources defined in GASB Statements No. 34 and No. 35.

Classification of Expenses - Nearly all the District's expenses are from exchange transactions and are classified as either operating or nonoperating according to the following criteria:

Operating expenses - Operating expenses are necessary costs to provide the services of the District and include employee salaries and benefits, supplies, operating expenses, and student financial aid.

Nonoperating expenses - Nonoperating expenses include interest expense and other expenses not directly related to the services of the District.

State Apportionments

Certain current year apportionments from the State are based on financial and statistical information of the previous year. Any corrections due to the recalculation of the apportionment are made in February of the subsequent year. When known and measurable, these recalculations and corrections are accrued in the year in which the FTES are generated.

Property Taxes

Secured property taxes attach as an enforceable lien on property as of January 1. The County Assessor is responsible for assessment of all taxable real property. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31. The County of San Diego bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

Scholarships, Discounts, and Allowances

Student tuition and fee revenue is reported net of scholarships, discounts, and allowances. Fee waivers approved by the Board of Governors are included within the scholarships, discounts, and allowances in the Statement of Revenues, Expenses, and Changes in Net Position. Scholarship discounts and allowances represent the difference between stated charges for enrollment fees and the amount that is paid by students or third parties making payments on the students' behalf.

Federal Financial Assistance Programs

The District participates in federally funded Pell Grants, SEOG Grants, and Federal Work-Study and Federal Direct Student Loan programs, as well as other programs funded by the Federal government. Financial aid to students is either reported as operating expenses or scholarship allowances, which reduce revenues. The amount reported as operating expense represents the portion of aid that was provided to the student in the form of cash. Scholarship allowances represent the portion of aid provided to students in the form of reduced tuition. These programs are audited in accordance with Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Interfund Activity

Interfund transfers and interfund receivables and payables for governmental activities are eliminated during the consolidation process in the Primary Government and Fiduciary Funds' financial statements, respectively.

Change in Accounting Principles

In June 2015, the GASB issued Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. The objective of this Statement is to improve the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of State and local governmental OPEB plans for making decisions and assessing accountability. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency.

This Statement replaces GASB Statements No. 43, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans. It also includes requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in GASB Statements No. 25, Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans, as amended, No. 43, and No. 50, Pension Disclosures.

The District has implemented the provisions of this Statement as of June 30, 2017.

As a result of implementing GASB Statement No. 74, the District has restated the beginning net position in the fiduciary funds statement of net position, effectively increasing the District's fiduciary net position as of July 1, 2016 by \$19,989,287. The increase results from accounting for the District's OPEB Trust account within the District's fiduciary funds.

In August 2015, the GASB issued Statement No. 77, *Tax Abatement Disclosures*. This Statement requires governments that enter into tax abatement agreements to disclose the following information about the agreements:

- Brief descriptive information, such as the tax being abated, the authority under which tax abatements are provided, eligibility criteria, the mechanism by which taxes are abated, provisions for recapturing abated taxes, and the types of commitments made by tax abatement recipients;
- The gross dollar amount of taxes abated during the period;
- Commitments made by a government, other than to abate taxes, as part of a tax abatement agreement.

The District has implemented the provisions of this Statement as of June 30, 2017.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

In December 2015, the GASB issued Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*. The objective of this Statement is to address a practice issue regarding the scope and applicability of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions—an amendment to GASB Statement No.* 27. This issue is associated with pensions provided through certain multiple-employer defined benefit pension plans and to State or local governmental employers whose employees are provided with such pensions.

Prior to the issuance of this Statement, the requirements of GASB Statement No. 68 applied to the financial statements of all State and local governmental employers whose employees are provided with pensions through pension plans that are administered through trusts that meet the criteria in paragraph 4 of that Statement.

This Statement amends the scope and applicability of GASB Statement No. 68 to exclude pensions provided to employees of State or local governmental employers through a cost-sharing multiple-employer defined benefit pension plan that (1) is not a State or local governmental pension plan; (2) is used to provide defined benefit pensions both to employees of State or local governmental employers and to employees of employers that are not State or local governmental employers; and (3) has no predominant State or local governmental employer (either individually or collectively with other State or local governmental employers that provide pensions through the pension plan). This Statement establishes requirements for recognition and measurement of pension expense, expenditures, and liabilities; note disclosures; and required supplementary information for pensions that have the characteristics described above.

The District has implemented the provisions of this Statement as of June 30, 2017.

In January 2016, the GASB issued Statement No. 80, Blending Requirements for Certain Component Units—an amendment to GASB Statement No. 14. The objective of this Statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. This Statement amends the blending requirements established in paragraph 53 of GASB Statement No. 14, The Financial Reporting Entity. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. The additional criterion does not apply to component units included in the financial reporting entity pursuant to the provisions of GASB Statement No. 39, Determining Whether Certain Organizations Are Component Units—an amendment to GASB Statement No. 14.

The District has implemented the provisions of this Statement as of June 30, 2017.

In March 2016, the GASB issued Statement No. 82, Pension Issues—an amendment of GASB Statements No. 67, No. 68, and No. 73. The objective of this Statement is to address certain issues that have been raised with respect to GASB Statement No. 67, Financial Reporting for Pension Plans—an amendment to GASB Statement No. 25, GASB Statement No. 68, Accounting and Financial Reporting for Pensions—an amendment to GASB Statement No. 27, and GASB Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68. Specifically, this Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information; (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes; and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

The District has implemented the provisions of this Statement as of June 30, 2017, except for the requirements of this Statement for the selection of assumptions in a circumstance in which an employer's pension liability is measured as of a date other than the employer's most recent fiscal year end. In that circumstance, the requirements for the selection of assumptions are effective for that employer in the first reporting period in which the measurement date of the pension liability is on or after June 15, 2017.

New Accounting Pronouncements

In June 2015, the GASB issued Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pension. The primary objective of this Statement is to improve accounting and financial reporting by State and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by State and local governmental employers about financial support for OPEB that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency.

This Statement replaces the requirements of GASB Statements No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, for OPEB. GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, establishes new accounting and financial reporting requirements for OPEB plans.

The requirements of this Statement are effective for financial statements for periods beginning after June 30, 2017. Early implementation is encouraged.

In March 2016, the GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*. The objective of this Statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement.

This Statement requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. Furthermore, this Statement requires that a government recognize assets representing its beneficial interests in irrevocable split-interest agreements that are administered by a third party, if the government controls the present service capacity of the beneficial interests. This Statement requires that a government recognize revenue when the resources become applicable to the reporting period.

The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2016, and should be applied retroactively. Early implementation is encouraged.

In November 2016, the GASB issued Statement No. 83, *Certain Asset Retirement Obligations*. This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

This Statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs. This Statement requires that recognition occur when the liability is both incurred and reasonably estimable. The determination of when the liability is incurred should be based on the occurrence of external laws, regulations, contracts, or court judgments, together with the occurrence of an internal event that obligates a government to perform asset retirement activities. Laws and regulations may require governments to take specific actions to retire certain tangible capital assets at the end of the useful lives of those capital assets, such as decommissioning nuclear reactors and dismantling and removing sewage treatment plants. Other obligations to retire tangible capital assets may arise from contracts or court judgments. Internal obligating events include the occurrence of contamination, placing into operation a tangible capital asset that is required to be retired, abandoning a tangible capital asset before it is placed into operation, or acquiring a tangible capital asset that has an existing ARO.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Early implementation is encouraged.

In January 2017, the GASB issued Statement No. 84, *Fiduciary Activities*. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported.

This Statement establishes criteria for identifying fiduciary activities of all State and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Early implementation is encouraged.

In March 2017, the GASB issued Statement No. 85, *Omnibus 2017*. The objective of this Statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]). Specifically, this Statement addresses the following topics:

- Blending a component unit in circumstances in which the primary government is a business-type activity that reports in a single column for financial statement presentation;
- Reporting amounts previously reported as goodwill and "negative" goodwill;
- Classifying real estate held by insurance entities;
- Measuring certain money market investments and participating interest-earning investment contracts at amortized cost;
- Timing of the measurement of pension or OPEB liabilities and expenditures recognized in financial statements prepared using the current financial resources measurement focus;
- Recognizing on-behalf payments for pensions or OPEB in employer financial statements;
- Presenting payroll-related measures in required supplementary information for purposes of reporting by OPEB plans and employers that provide OPEB;
- Classifying employer-paid member contributions for OPEB;
- Simplifying certain aspects of the alternative measurement method for OPEB;

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

 Accounting and financial reporting for OPEB provided through certain multiple-employer defined benefit OPEB plans.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2017. Early implementation is encouraged.

In May 2017, the GASB issued Statement No. 86, *Certain Debt Extinguishment Issues*. The primary objective of this Statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2017. Early implementation is encouraged.

In June 2017, the GASB issued Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

The requirements of this Statement are effective for the reporting periods beginning after December 15, 2019. Early implementation is encouraged.

NOTE 3 - DEPOSITS AND INVESTMENTS

Policies and Practices

The District is authorized under California Government Code and the District's investment policy to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium-term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

Investment in County Treasury - The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (*Education Code* Section (ECS) 41001). The fair value of the District's investment in the pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

General Authorizations

Limitations as they relate to interest rate risk, credit risk, and concentration of credit risk are indicated in the schedules below:

	Maximum	Maximum	Maximum
Authorized	Remaining	Percentage	Investment
Investment Type	Maturity	of Portfolio	in One Issuer
Local Agency Bonds, Notes, Warrants	5 years	None	None
Registered State Bonds, Notes, Warrants	5 years	None	None
U.S. Treasury Obligations	5 years	None	None
U.S. Agency Securities	5 years	None	None
Banker's Acceptance	180 days	40%	30%
Commercial Paper	270 days	25%	10%
Negotiable Certificates of Deposit	5 years	30%	None
Repurchase Agreements	1 year	None	None
Reverse Repurchase Agreements	92 days	20% of base	None
Medium-Term Corporate Notes	5 years	30%	None
Mutual Funds	N/A	20%	10%
Money Market Mutual Funds	N/A	20%	10%
Mortgage Pass-Through Securities	5 years	20%	None
County Pooled Investment Funds	N/A	None	None
Local Agency Investment Fund (LAIF)	N/A	None	None
Joint Powers Authority Pools	N/A	None	None

Authorized Under Debt Agreements

Investments of debt proceeds held by bond trustees are governed by provisions of the debt agreements rather than the general provisions of the California Government Code. These provisions allow for the acquisition of investment agreements with maturities of up to 30 years.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

Summary of Deposits and Investments

Deposits and investments as of June 30, 2017, consist of the following:

	Primary			Fiduciary
	Government			Funds
Cash on hand and in banks	\$ 1,035	,345	\$	380,146
Cash in revolving	115	,000		-
Investments	47,035	,808		22,097,648
Total Deposits and Investments	\$ 48,186	,153	\$	22,477,794

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The District manages its exposure to interest rate risk by primarily investing in the San Diego County Investment Pool and the Master Trust.

Specific Identification

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuation is provided by the following schedule that shows the distribution of the District's investment by maturity:

		Book Fair		Fair	Weighted Average
Investment Type	Value		Value Value		Days to Maturity
U.S. Federated Cash Reserves	\$	319,169	\$	319,169	50
San Diego County Investment Pool		46,976,493		46,817,282	417
Master Trust		21,837,794		21,837,794	N/A
Total	\$	69,133,456	\$	68,974,245	

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The Master Trust is not required to be rated. The U.S. Federated Cash Reserves and the San Diego County Investment Pool were rated AAAm and AAAf/S1 by Standard & Poor's, respectively.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

Custodial Credit Risk - Deposits

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk for deposits. However, the California Government Code requires that a financial institution secure deposits made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under State law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agency. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits. As of June 30, 2017, the bank balance totaled \$1,530,859 of which \$1,030,859 was exposed to custodial credit risk because it was uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the name of the District. The balance of \$1,530,859 consisted of \$1,112,684 in District funds and \$418,175 in fiduciary funds.

NOTE 4 - FAIR VALUE MEASUREMENTS

The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value. The following provides a summary of the hierarchy used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets that the District has the ability to access at the measurement date. Level 1 assets may include debt and equity securities that are traded in an active exchange market and that are highly liquid and are actively traded in over-the-counter markets.

Level 2 - Observable inputs, other than Level 1 prices, such as quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, or other inputs that are observable, such as interest rates and curves observable at commonly quoted intervals, implied volatilities, and credit spreads. For financial reporting purposes, if an asset has a specified term, a Level 2 input is required to be observable for substantially the full term of the asset.

Level 3 - Unobservable inputs should be developed using the best information available under the circumstances, which might include the District's own data. The District should adjust that data if reasonably available information indicates that other market participants would use different data or certain circumstances specific to the District are not available to other market participants.

Uncategorized - Investments in the San Diego County Investment Pool are not measured using the input levels above because the District's transactions are based on a stable net asset value per share. All contributions and redemptions are transacted at \$1.00 net asset value per share.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

The District's fair value measurements are as follows at June 30, 2017:

		Level 1	Level 3	
Investment Type	Fair Value	Inputs	Inputs	Uncategorized
U.S. Federated Cash Reserves	\$ 319,169	\$ 319,169	\$ -	\$ -
San Diego County Investment Pool	46,817,282	-	-	46,817,282
Master Trust	21,837,794		21,837,794	
Total	\$ 68,974,245	\$ 319,169	\$ 21,837,794	\$ 46,817,282

All assets have been valued using a market approach, with quoted market prices.

The following table summarizes the District's Level 3 reconciliation as of June 30, 2017:

	Level 3
	Inputs
Investments at Fair Value	-
Balance at July 1, 2016	\$ 19,989,287
Interest and investment income	442,109
Net realized and unrealized gain	1,406,898
Administrative fees	(500)
Balance at June 30, 2017	\$ 21,837,794

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

NOTE 5 - ACCOUNTS RECEIVABLE

Accounts receivable at June 30, 2017, consisted primarily of intergovernmental grants, entitlements, interest, and other local sources.

The accounts receivable are as follows:

	Primary			Fiduciary
Federal Government	G	overnment	Funds	
Categorical aid	\$	1,042,440	\$	-
State Government				
Categorical aid		182,290		-
Lottery		1,087,323		-
Local Sources				
Interest		134,525		5,422
Third Party Billing		199,522		-
Student Community Service		534,593		-
Property Taxes		288,227		-
Other local sources		440,698		843
Total	\$	3,909,618	\$	6,265
Student receivables	\$	1,872,384	\$	

NOTE 6 - INTERFUND TRANSACTIONS

Interfund Receivables and Payables (Due to/Due From)

Interfund receivable and payable balances arise from interfund transactions and are recorded by all funds affected in the period in which transactions are executed. Interfund activity within the governmental funds and fiduciary funds has been eliminated respectively in the basic financial statements. Balances owing between the primary government and the fiduciary funds are not eliminated in the consolidation process. As of June 30, 2017, the amount owed to the primary government and the fiduciary funds were \$77,534 and \$191,603, respectively.

Interfund Operating Transfers

Operating transfers between funds of the District are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use restricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. Operating transfers within the funds of the District have been eliminated in the consolidation process. Transfers between the primary government and the fiduciary funds are not eliminated in the consolidation process. During the 2017 fiscal year, the amount transferred to the fiduciary funds from the primary government amounted to \$687,943.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

NOTE 7 - PREPAID EXPENSES

Student Financial Aid Disbursement	\$ 215,741
Other	 137,017
Total	\$ 352,758

NOTE 8 - CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2017, was as follows:

Primary Government

	Balance July 1, 2016			Balance June 30, 2017
Capital Assets Not Being Depreciated				
Land	\$ 5,366,281	\$ -	\$ -	\$ 5,366,281
Construction in progress	4,423,244	7,568,221	8,987,128	3,004,337
Total Capital Assets Not Being Depreciated	9,789,525	7,568,221	8,987,128	8,370,618
Capital Assets Being Depreciated				
Infrastructure	6,973,451	466,123	-	7,439,574
Buildings and improvements	141,747,336	7,589,982	-	149,337,318
Furniture and equipment	19,076,662	1,088,147	249,971	19,914,838
Total Capital Assets Being Depreciated	167,797,449	9,144,252	249,971	176,691,730
Total Capital Assets	177,586,974	16,712,473	9,237,099	185,062,348
Less Accumulated Depreciation				
Infrastructure	4,966,314	165,626	_	5,131,940
Buildings and improvements	62,195,566	2,236,922	-	64,432,488
Furniture and equipment	14,942,716	1,112,396	240,037	15,815,075
Total Accumulated Depreciation	82,104,596	3,514,944	240,037	85,379,503
Net Capital Assets	\$ 95,482,378	\$ 13,197,529	\$ 8,997,062	\$ 99,682,845

Depreciation expense for the year was \$3,514,944.

Assets consisting of the Creative Arts Expansion Building in the amount of \$15,053,899, the Administration Building in the amount of \$3,912,594, the Library and Information Hub in the amount of \$12,088,954, and the Theater Building in the amount of \$3,163,394 have been pledged as collateral for lease agreements described in Note 11.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

Description of Debt

Payments on the lease revenue bond are paid by the debt service fund. The compensated absences and load banking will be paid by the fund for which the employee worked. Pension expense related to the aggregate net pension obligation will be paid by the fund for which the employee worked. See Note 15 for further details of the aggregate net pension obligation. Capital lease payments are also made out of the debt service fund.

On September 16, 2010, the District issued lease revenue bonds in the amount of \$3,065,000 to be used to refinance the acquisition and construction of capital improvement, fund debt service reserve accounts, and to pay the cost of issuing the bonds. The bonds mature beginning on October 1, 2011 through October 1, 2019, with interest yields ranging from 3.00 to 4.00 percent.

At June 30, 2017, the principal balance outstanding was \$950,000 and unamortized premium of \$31,508, respectively. Premiums are amortized over the life of the bonds as a component of interest expense on the bonds.

Debt Maturity

Lease Revenue Bonds

				Bonds			Bonds
Issue	Maturity	Interest	Original	Outstanding			Outstanding
Date	Date	Rate	Issue	July 1, 2016	Issued	Redeemed	June 30, 2017
2010	2019	3.00% - 4.00%	\$3,065,000	\$ 1,335,000	\$ -	\$ 385,000	\$ 950,000

The bonds mature through 2020 as follows:

		Interest to				
Fiscal Year_	Pr	rincipal	M	aturity		Total
2018	\$	395,000	\$	22,575	\$	417,575
2019		405,000		10,575		415,575
2020		150,000		2,250		152,250
Total	\$	950,000	\$	35,400	\$	985,400

Lease/Purchase Agreement

In February 2015, the District entered into a lease/purchase agreement in the amount of \$12,650,000 with the California Community College Financing Authority to finance various capital improvement projects, including but not limited to: classroom modernization, building renovations, construction of new allied health instructional building, relocation of Community Services and small business development centers, and other improvements to District infrastructure.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

As of June 30, 2017, the principal balance outstanding is \$11,315,000. The lease/purchase agreement matures through 2030 as follows:

		Interest to				
Fiscal Year_	Principal	Principal Maturity Total				
2018	\$ 720,000	\$ 344,149	\$ 1,064,149			
2019	740,000	321,669	1,061,669			
2020	765,000	298,648	1,063,648			
2021	790,000	274,778	1,064,778			
2022	815,000	250,135	1,065,135			
2023-2027	4,465,000	854,463	5,319,463			
2028-2030	3,020,000	165,392	3,185,392			
Total	\$ 11,315,000	\$ 2,509,234	\$ 13,824,234			

Capital Leases

On December 21, 2006, the District entered into a debt financing agreement with SunTrust Corporation for the construction of six energy efficiency projects valued at approximately \$2,234,983. The District is obligated to make payments through 2017 at an annual interest rate of 4.30 percent. At June 30, 2017, the balance was paid in full.

The District's liability on lease agreements with option to purchase is summarized below:

Balance, July 1, 2016	\$ 128,366
Payments	 128,366
Balance, June 30, 2017	\$ -

The District has entered into a capital lease agreement for the energy efficient project.

Building improvements (energy efficient project)	\$ 2,234,383
Less: Accumulated Depreciation	 439,429
Total	\$ 1,794,954

Amortization of the energy efficient project under capital leases is included with depreciation expense.

Compensated Absences

At June 30, 2017, the liability for compensated absences was \$2,030,448.

Load Banking

At June 30, 2017, the liability for load banking was \$1,216,797.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

Aggregate Net Pension Obligation

At June 30, 2017, the liability for the aggregate net pension obligation amounted to \$101,114,975. See Note 15 for additional information.

NOTE 12 - POSTEMPLOYMENT HEALTHCARE PLAN AND OTHER POSTEMPLOYMENT BENEFITS (OPEB) OBLIGATION

Plan Description

Plan administration. The District's Governing Board administers the Postemployment Benefits Plan (the Plan), a single-employer defined benefit plan that is used to provide postemployment benefits other than pensions (OPEB) for the District.

Management of the Plan is vested with the MiraCosta Community College District Retirement Board of Authority, which consists of locally appointed Plan members.

Plan membership. At June 30, 2017, Plan membership consisted of the following:

Inactive Plan members or beneficiaries currently receiving benefit payments	96
Active Plan members	475
	571

Benefits provided. The District provides health coverage for the retiree and any eligible dependents at the same level as that of current active employees until the retiree reaches age 65. To be eligible to receive retiree health coverage, the employee must be at least age 55 and have 10 years of eligible service at retirement. Retirees can elect health coverage from a menu of options for themselves and their dependents. The District pays for this coverage up to an annual maximum. For 2015, the annual maximum is based on the medical, dental and vision plan elected by the retiree (\$22,287 for the PPO and \$18,555 for the HMO). The retiree must pay the cost for any benefits elected that result in total costs above the annual maximum, if any.

After reaching age 65, early retirees who retired from the District on or after June 30, 2004 and eligible active employees who retire on or after age 65 are eligible to receive reimbursement for premiums paid for a Medicare Supplement Policy. The District will reimburse the retiree up to an annual maximum (\$2,500 for retiree only/\$5,000 for retiree and spouse/domestic partner). The annual maximum is based on the average cost of Medicare Supplement policies according to AARP and may be updated each year. The dollar amount has not change in past years. This benefit is payable only to the retiree and only through the earlier of age 75 or death.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

Contribution Information

Contributions. The contribution requirements of Plan members and the District are established and may be amended by the District and the District's bargaining units. The required contribution is based on projected payas-you-go financing requirements, with an additional amount to prefund benefits as determined annually by MiraCosta Community College District Governing Board. For fiscal year 2016-2017, the District contributed \$984,894 to the Plan, all of which was used for current premiums. Plan members are not required to contribute to the Plan.

Investments

Investment policy. The Plan's policy in regard to the allocation of invested assets is established and may be amended by the MiraCosta Community College District Retirement Board of Authority by a majority vote of its members. It is the policy of the Retirement Board of Authority to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The Plan's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans. The following was the Board's adopted asset allocation policy as of June 30, 2017:

Asset Class	Target Allocation
Domestic equity	50%
Fixed income	50%
Total	100%

Rate of return. For the year ended June 30, 2017, the annual money-weighted rate of return on investments, net of investment expense, was 9.20 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Total Net OPEB Liability of the District

The component of the net OPEB liability of the District as of June 30, 2017, was as follows:

Total OPEB liability	\$ 20,095,621
Plan fiduciary net position	21,837,794
District's net OPEB (asset) liability	(1,742,173)
Plan fiduciary net position as a percentage of the total OPEB liability	109%

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

Actuarial assumptions. The total OPEB liability was determined by an actuarial valuation as of August 2015, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation 3.00 percent

Salary increases N/A

Investment rate of return 6.00 percent, net of OPEB plan investment expense, including inflation

Healthcare cost trend rates 7.50 percent an ultimate rate of 5.00 percent for healthcare costs,

4.00 percent for Dental and Vision Programs.

Mortality rates are based on the most recent rates used by CalPERS and STRS for the pension valuations.

The actuarial assumptions used in the August 2015 valuation were based on the results of an actuarial experience study for the period as of July 1, 2015.

The long-term expected rate of return on OPEB Plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of June 30, 2017, are summarized in the following table:

	Long-Term
	Expected Real
Asset Class	Rate of Return
Domestic equity	4.3%
Fixed income	2.0%

Discount rate. The discount rate used to measure the total OPEB liability was 6.0 percent. The projection of cash flows used to determine the discount rate assumed that District contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on OPEB Plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the net OPEB liability to changes in the discount and healthcare cost trend rates. The OPEB liability is based on the actuarial report that relies on estimates and assumptions that affect the amounts reported. Particularly, changes in the discount and healthcare cost trend rates used can have a significant impact on the resulting actuarially determined OPEB liability. Actual results may differ from these estimates and assumptions.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

NOTE 13 - LEASE REVENUES

Lease agreements have been entered into with various lessees for terms that exceed one year. None of the agreements contain purchase options. All of the agreements contain a termination clause providing for cancellation after a specified number of days written notice to lessees, but is unlikely that the District will cancel any of the agreements prior to their expiration date. The future minimum lease payments expected to be received under these agreements are as follows:

Year Ending	Lease
June 30,	Revenue
2018	\$ 90,750
2019	45,375
Total	\$ 136,125

NOTE 14 - RISK MANAGEMENT

Property and Liability Insurance Coverages

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District purchases commercial insurance for property with coverages of \$500 million, subject to various policy limits and deductibles ranging from \$0 to \$10,000 per occurrence. The District also purchases commercial insurance for general liability claims with coverage up to \$55 million per occurrence and \$10 million aggregate, all subject to various deductibles.

Each participant pays its liability insurance premium based on its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall saving. A participant will then either receive money from or be required to contribute to the "equity-pooling fund". This "equity pooling" arrangement ensures that each participant shares equally in the overall performance of the JPA. Participation in the JPA is limited to K-12 and community college Districts that can meet the JPA's selection criteria.

Joint Powers Authority Risk Pools

During fiscal year ended June 30, 2017, the District contracted with the San Diego County Schools Risk Management Joint Powers Authority for property and liability insurance coverage. Settled claims have not exceeded this commercial coverage in any of the past three years. There has not been a significant reduction in coverage from the prior year.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

Workers' Compensation

The District maintains a self-insurance plan for workers' compensation benefits as authorized by Section 81602 of the California Education Code. Claims are paid by a third party administrator acting on behalf of the District under the terms of a contractual agreement. Coverage for workers' compensation claims is provided by a tiered system. The Worker's Compensation Fund provides coverage for up to a maximum of \$100,000 per occurrence. In addition, the District participates in a Joint Powers Arrangement with the San Diego County Schools Risk Management Joint Powers Authority that provides coverage for claims exceeding \$100,000 with a limit of \$900,000 per occurrence. In addition, there is excess worker's compensation up to the statutory limit.

Insurance Program / Company Name	Type of Coverage	 Limits
San Diego County Schools Risk Management	Workers' Compensation	\$ 1,000,000
San Diego County Schools Risk Management	Excess Workers' Compensation	Statutory
San Diego County Schools Risk Management	Property	500,000,000
San Diego County Schools Risk Management	Liability	55,000,000

NOTE 15 - EMPLOYEE RETIREMENT SYSTEMS

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. Academic employees are members of CalSTRS and classified employees are members of CalPERS.

For the fiscal year ended June 30, 2017, the District reported the net pension liabilities, pension expense, and deferred outflows of resources and deferred inflows of resources for each of the above plans as follows:

			Collective Col		Collective				
	Collect	Collective Net		Deferred Outflows		Deferred Inflows		Collective	
Pension Plan	Pension	Pension Liability		of Resources		of Resources		Pension Expense	
CalSTRS	\$ 59	,693,011	\$	11,080,547	\$	5,685,121	\$	5,580,790	
CalPERS	41	,421,964		12,190,326		1,473,343		5,291,437	
Total	\$ 101	,114,975	\$	23,270,873	\$	7,158,464	\$	10,872,227	

The details of each plan are as follows:

California State Teachers' Retirement System (CalSTRS)

Plan Description

The District contributes to the State Teachers' Retirement Plan (STRP) administered by CalSTRS. STRP is a cost-sharing multiple-employer public employee retirement system defined benefit pension plan. Benefit provisions are established by State statutes, as legislatively amended, within the State Teachers' Retirement Law.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

A full description of the pension plan regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2015, annual actuarial valuation report, Defined Benefit Program Actuarial Valuation. This report and CalSTRS audited financial information are publically available reports that can be found on the CalSTRS website under Publications at: http://www.calstrs.com/member-publications.

Benefits Provided

The STRP provides retirement, disability, and survivor benefits to beneficiaries. Benefits are based on members' final compensation, age, and years of service credit. Members hired on or before December 31, 2012, with five years of credited service are eligible for the normal retirement benefit at age 60. Members hired on or after January 1, 2013, with five years of credited service are eligible for the normal retirement benefit at age 62. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service.

The STRP is comprised of four programs: Defined Benefit Program, Defined Benefit Supplement Program, Cash Balance Benefit Program, and Replacement Benefits Program. The STRP holds assets for the exclusive purpose of providing benefits to members and beneficiaries of these programs. CalSTRS also uses plan assets to defray reasonable expenses of administering the STRP. Although CalSTRS is the administrator of the STRP, the State is the sponsor of the STRP and obligor of the trust. In addition, the State is both an employer and nonemployer contributing entity to the STRP.

The District contributes exclusively to the STRP Defined Benefit Program, thus disclosures are not included for the other plans.

The STRP provisions and benefits in effect at June 30, 2017, are summarized as follows:

	STRP Defined Benefit Program		
	On or before On or after		
Hire date	December 31, 2012	January 1, 2013	
Benefit formula	2% at 60	2% at 62	
Benefit vesting schedule	5 years of service	5 years of service	
Benefit payments	Monthly for life	Monthly for life	
Retirement age	60	62	
Monthly benefits as a percentage of eligible compensation	2.0% - 2.4%	2.0% - 2.4%	
Required employee contribution rate	10.25%	9.205%	
Required employer contribution rate	12.58%	12.58%	
Required State contribution rate	8.828%	8.828%	

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

Contributions

Required member, District, and State of California contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. The contribution rates are expressed as a level percentage of payroll using the entry age normal actuarial method. In accordance with AB 1469, employer contributions into the CalSTRS will be increasing to a total of 19.1 percent of applicable member earnings phased over a seven-year period. The contribution rates for each plan for the year ended June 30, 2017, are presented above, and the District's total contributions were \$4,666,118.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

Total net pension liability, including State share:

District's proportionate share of net pension liability	\$ 59,693,011
State's proportionate share of net pension liability associated with the District	 33,982,167
Total	\$ 93,675,178

The net pension liability was measured as of June 30, 2016. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating college districts and the State, actuarially determined. The District's proportionate share for the measurement periods of June 30, 2016 and June 30, 2015, was 0.0738 percent and 0.0805 percent, respectively, resulting in a net decrease in the proportionate share of 0.0067 percent.

For the year ended June 30, 2017, the District recognized pension expense of \$5,580,790. In addition, the District recognized pension expense and revenue of \$3,284,734 for support provided by the State. At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Deferred Outflows

Deferred Inflows

	 Resources	 Resources
Pension contributions subsequent to measurement date	\$ 4,666,118	\$ -
Net change in proportionate share of net pension liability	1,668,864	4,228,978
Differences between projected and actual earnings on the pension plan investment	4,745,565	-
Differences between expected and actual experience in the		
measurement of the total pension liability	_	 1,456,143
Total	\$ 11,080,547	\$ 5,685,121

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year.

The deferred outflows of resources related to the difference between projected and actual earnings on pension plan investments will be amortized over a closed five-year period and will be recognized in pension expense as follows:

	Deferred
Year Ended	Outflows
June 30,	of Resources
2018	\$ 103,533
2019	103,533
2020	2,758,613
2021	1,779,886
Total	\$ 4,745,565
Total	\$ 4,745,565

The deferred outflows/(inflows) of resources related to the net change in proportionate share of net pension liability and differences between expected and actual experience in the measurement of the total pension liability will be amortized over the Expected Average Remaining Service Life (EARSL) of all members that are provided benefits (active, inactive, and retirees) as of the beginning of the measurement period. The EARSL for the measurement period is seven years and will be recognized in pension expense as follows:

	Deferred
Year Ended	Outflows/(Inflows)
June 30,	of Resources
2018	\$ (636,812)
2019	(636,812)
2020	(636,812)
2021	(636,812)
2022	(636,811)
Thereafter	(832,198)
Total	\$ (4,016,257)

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

Actuarial Methods and Assumptions

Total pension liability for STRP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2015, and rolling forward the total pension liability to June 30, 2016. The financial reporting actuarial valuation as of June 30, 2015, used the following methods and assumptions, applied to all prior periods included in the measurement:

Valuation date	June 30, 2015
Measurement date	June 30, 2016
Experience study	July 1, 2006 through June 30, 2010
Actuarial cost method	Entry age normal
Discount rate	7.60%
Investment rate of return	7.60%
Consumer price inflation	3.00%
Wage growth	3.75%

CalSTRS uses custom mortality tables to best fit the patterns of mortality among its members. These custom tables are based on RP2000 series tables adjusted to fit CalSTRS experience.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant. Based on the model for CalSTRS consulting actuary's investment practice, a best estimate range was determined by assuming the portfolio is re-balanced annually and that the annual returns are lognormally distributed and independent from year to year to develop expected percentiles for the long-term distribution of annualized returns. The assumed asset allocation is based on the Teachers' Retirement Board of the California State Teachers' Retirement System (board) policy for target asset allocation in effect on February 2, 2012, the date the current experience study was approved by the board. Best estimates of 10-year geometric real rates of return and the assumed asset allocation for each major asset class used as input to develop the actuarial investment rate of return are summarized in the following table:

		Long-Term
	Assumed Asset	Expected Real
Asset Class	Allocation	Rate of Return
Global equity	47%	6.30%
Fixed income	12%	0.30%
Real estate	13%	5.20%
Private equity	13%	9.30%
Absolute Return/Risk		
Mitigating Strategies	9%	2.90%
Inflation sensitive	4%	3.80%
Cash/liquidity	2%	-1.00%

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

Discount Rate

The discount rate used to measure the total pension liability was 7.60 percent. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.60 percent) and assuming that contributions, benefit payments, and administrative expense occurred midyear. Based on these assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate, as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

	N	Net Pension	
Discount Rate		Liability	
1% decrease (6.60%)	\$	85,911,706	
Current discount rate (7.60%)		59,693,011	
1% increase (8.60%)		37,917,228	

California Public Employees' Retirement System (CalPERS)

Plan Description

Qualified employees are eligible to participate in the School Employer Pool (SEP) under CalPERS, a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Law.

A full description of the pension plan regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2015, annual actuarial valuation report, Schools Pool Actuarial Valuation. This report and CalPERS audited financial information are publically available reports that can be found on the CalPERS website under Forms and Publications at: https://www.calpers.ca.gov/page/forms-publications.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members who must be public employees and beneficiaries. Benefits are based on years of service credit, a benefit factor, and the member's final compensation. Members hired on or before December 31, 2012, with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. Members hired on or after January 1, 2013, with five years of total service are eligible to retire at age 52 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after five years of service. The Basic Death Benefit is paid to any member's beneficiary if the member dies while actively employed. An employee's eligible survivor may receive the 1957 Survivor Benefit if the member dies while actively employed, is at least age 50 (or age 52 for members hired on or after January 1, 2013), and has at least five years of credited service. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

The CalPERS provisions and benefits in effect at June 30, 2017, are summarized as follows:

	School Employer Pool (CalPERS)	
	On or before	On or after
Hire date	December 31, 2012	January 1, 2013
Benefit formula	2% at 55	2% at 62
Benefit vesting schedule	5 years of service	5 years of service
Benefit payments	Monthly for life	Monthly for life
Retirement age	55	62
Monthly benefits as a percentage of eligible compensation	1.1% - 2.5%	1.0% - 2.5%
Required employee contribution rate	7.00%	6.00%
Required employer contribution rate	13.888%	13.888%

Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on July 1 following notice of a change in the rate. Total plan contributions are calculated through the CalPERS annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The contribution rates are expressed as a percentage of annual payroll. The contribution rates for each plan for the year ended June 30, 2017, are presented above, and the total District contributions were \$3,721,340.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

As of June 30, 2017, the District reported net pension liabilities for its proportionate share of the CalPERS net pension liability totaling \$41,421,964. The net pension liability was measured as of June 30, 2016. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating college districts, actuarially determined. The District's proportionate share for the measurement periods of June 30, 2016 and June 30, 2015, was 0.2097 percent and 0.2074 percent, respectively, resulting in a net increase in the proportionate share of 0.0023 percent.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

For the year ended June 30, 2017, the District recognized pension expense of \$5,291,437. At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows		Deferred Inflows	
	of Resources		of Resources	
Pension contributions subsequent to measurement date	\$	3,721,340	\$	-
Net change in proportionate share of net pension liability		260,087		228,860
Differences between projected and actual earnings on the				
pension plan investment		6,427,357		-
Differences between expected and actual experience in the				
measurement of the total pension liability		1,781,542		-
Changes of assumptions				1,244,483
Total	\$	12,190,326	\$	1,473,343

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year.

The deferred outflows of resources related to the difference between projected and actual earnings on pension plan investments will be amortized over a closed five-year period and will be recognized in pension expense as follows:

Year Ended	Deferred Outflows
June 30,	of Resources
2018	\$ 901,522
2019	901,523
2020	2,946,829
2021	1,677,483
Total	\$ 6,427,357

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

The deferred outflows/(inflows) of resources related to the net change in proportionate share of net pension liability, changes of assumptions, and differences between expected and actual experience in the measurement of the total pension liability will be amortized over the Expected Average Remaining Service Life (EARSL) of all members that are provided benefits (active, inactive, and retirees) as of the beginning of the measurement period. The EARSL for the measurement period is 3.9 years and will be recognized in pension expense as follows:

	Deterred	Deterred	
Year Ended	Outflows/(Inflows)	Outflows/(Inflows)	
June 30,	of Resources	of Resources	
2018	\$ 138,651	1	
2019	155,270	\mathcal{C}	
2020	274,365	5_	
Total	\$ 568,286	5	

Actuarial Methods and Assumptions

Total pension liability for the SEP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2015, and rolling forward the total pension liability to June 30, 2016. The financial reporting actuarial valuation as of June 30, 2015, used the following methods and assumptions, applied to all prior periods included in the measurement:

Valuation date	June 30, 2015
Measurement date	June 30, 2016
Experience study	July 1, 1997 through June 30, 2011
Actuarial cost method	Entry age normal
Discount rate	7.65%
Investment rate of return	7.65%
Consumer price inflation	2.75%
Wage growth	Varies by entry age and services

Mortality assumptions are based on mortality rates resulting from the most recent CalPERS experience study adopted by the CalPERS Board. For purposes of the post-retirement mortality rates, those revised rates include five years of projected ongoing mortality improvement using Scale AA published by the Society of Actuaries.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations, as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first ten years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Long-Term
	Assumed Asset	Expected Real
Asset Class	Allocation	Rate of Return
Global equity	51%	5.71%
Global debt securities	20%	2.43%
Inflation assets	6%	3.36%
Private equity	10%	6.95%
Real estate	10%	5.13%
Infrastructure and Forestland	2%	5.09%
Liquidity	1%	-1.05%

Discount Rate

The discount rate used to measure the total pension liability was 7.65 percent. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Based on these assumptions, the School Employer Pool fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate, as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

	Net Pension				
Discount Rate	Liability				
1% decrease (6.65%)	\$ 61,801,800	_			
Current discount rate (7.65%)	41,421,964				
1% increase (8.65%)	24,451,739	1			

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

Public Agency Retirement System Alternate Retirement System (PARS-ARS)

The Omnibus Budget Reconciliation Act of 1990 [Internal Revenue Code Section 3121 (b) (7) (F)] requires State and local public agencies to provide a retirement plan for all employees not covered under existing employer pension plans and/or Social Security.

The District is a member of the Public Agency Retirement System Alternate Retirement System (PARS-ARS). The plan covers the District's part-time, seasonal, temporary, and other classified employees not covered under CalPERS or CalSTRS, but whose salaries would otherwise be subject to Social Security tax. Benefit provisions and other requirements are established by District management based on agreements with various bargaining units. PARS-ARS is a defined contribution qualified retirement plan under Section 401 (a) of the Internal Revenue Code. The plan also shall remain a governmental plan under Section 3 (32) of the Employee Retirement Income Security Act of 1974.

The minimum total contribution is 7.5 percent of employees' salaries, of which the employee contributes 3.75 percent and the District contributes the remaining 3.75 percent. District employees are covered under PARS-ARS as of June 30, 2017. Total District contributions to the plan amounted to \$108,332.

On Behalf Payments

The State of California makes contributions to CalSTRS and CalPERS on behalf of the District. These payments consist of State General Fund contributions to CalSTRS for the fiscal year ended June 30, 2017, which amounted to \$3,272,675 (8.828 percent) of salaries subject to CalSTRS. Contributions are no longer appropriated in the annual *Budget Act* for the legislatively mandated benefits to CalPERS. Therefore, there is no on behalf contribution rate for CalPERS. No contributions were made for CalPERS for the year ended June 30, 2017. Under accounting principles generally accepted in the United States of America, these amounts are to be reported as revenues and expenditures. These amounts have been reflected in the basic financial statements as a component of nonoperating revenue and employee benefit expense.

Deferred Compensation

The District offers its employees a CalPERS administered 457 Deferred Compensation Program (the Program). The Program, available to all permanent employees, permits them to defer a portion of pre-tax salary into investment of an individual's own choosing until future years. The deferred compensation is not available to the employees or their beneficiaries until termination, retirement, death, or an unforeseeable emergency. The CalPERS Board controls the investment and administrative functions of the CalPERS 457 Deferred Compensation Program. The Board for the exclusive benefit of participating employees, which adds security, holds the assets in trust.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

NOTE 16 - PARTICIPATION IN PUBLIC ENTITY RISK POOLS AND JOINT POWERS AUTHORITIES

The District is a member of the San Diego School Risk Management and Retiree Health Benefit Program Joint Power Authority (JPAs). The District pays annual premiums for its property liability, health, and workers' compensation coverage. The relationship between the District and the JPA is such that it is not a component unit of the District for financial reporting purposes.

The JPAs have budgeting and financial reporting requirements independent of member units and their financial statements are not presented in these financial statements; however, transactions between the JPAs and the District are included in these statements. Audited financial statements are available from the respective entities.

The District's share of year-end assets, liabilities, or fund equity has not been calculated.

During the year ended June 30, 2017, the District made payments of \$1,084,653 and \$0 to San Diego School Risk Management and Retiree Health Benefit Program, respectively.

NOTE 17 - COMMITMENTS AND CONTINGENCIES

Grants

The District receives financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the District. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2017.

Litigation

The District is involved in various litigation arising from the normal course of business. In the opinion of management and legal counsel, the disposition of all litigation pending is not expected to have a material adverse effect on the overall financial position of the District at June 30, 2017.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

Construction Commitments

As of June 30, 2017, the District had the following commitments with respect to the unfinished capital projects:

			Expected
	Co	onstruction	Dates of
CAPITAL PROJECTS	Co	mmitments	Completion
STEM Center	\$	96,935	January 2018
Theater/Film/Dance/Kinesiology		3,388,327	August 2018
Storage for Art		1,938,001	February 2018
Replace Temp Modular Facilities		894,936	June 2018
CLC Office Remodel		1,812	December 2018
Miscellaneous Building and Land Improvements		101,382	December 2017
	\$	6,421,393	

The projects are funded through a combination of general obligation bonds, capital project apportionments from the California Community College Chancellor's Office, and local funds.

NOTE 18 - RESTATEMENT OF PRIOR YEAR FIDUCIARY NET POSITION

The District's beginning fiduciary net position has been restated as of July 1, 2016.

The District adopted GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, in the current year. The implementation of this standard required a change in accounting principle and restatement of the beginning net position of the fiduciary funds by \$19,989,287.

Fiduciary Funds	
Fiduciary Net Position - Beginning	\$ 5,542,242
Restatement of Retiree OPEB Trust for implementation of GASB Statement No. 74	19,989,287
Fiduciary Net Position - Beginning, as Restated	\$ 25,531,529

NOTE 19 - SUBSEQUENT EVENTS

In September 2017, the District issued General Obligation Bonds, Election of 2016, Series A in the amount of \$100,000,000. The Series A bonds were issued as current interest bonds. The bonds have a final maturity of August 1, 2042, with interest rate yields of 3.00 to 5.00 percent. Proceeds from the sale of the bonds will be used to finance the acquisition, construction, modernization and equipping of District sites and facilities, prepay the 2015 Lease/Purchase Agreement and pay the cost of issuing the bonds.

NOTE TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2017

NOTE 1 - PURPOSE OF SCHEDULES

Schedule of Changes in the District's Net OPEB Asset and Related Ratios

This schedule presents information on the District's changes in the net OPEB asset, including beginning and ending balances, the plan's fiduciary net position, and the net OPEB asset. In the future, as data becomes available, ten years of information will be presented. There were no changes in benefit terms or assumptions in the current year..

Schedule of District Contributions for OPEB

This schedule presents information on the District's actuarially determined contribution, contributions in relation to the actuarially determined contribution, and any excess or deficiency related to the actuarially determined contribution. In the future, as data becomes available, ten years of information will be presented.

Valuation Date: Actuarially determined contribution rates are calculated as of July 1, 2015, two years prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Projected unit credit with service prorate
Amortization method	Level dollar
Amortization period	Initial UAAL: 30 years
	Residual UAAL: 23 years
Asset Valuation method	Market value basis
Inflation	3.00 percent
Healthcare cost trend rates	7.50 percent initial, decreasing to an ultimate rate of 5.00 percent 4.00 percent for Dental and Vision Programs
Salary increases	Not applicable
Investment rate of return	6.00 percent
Retirement age	Average retirement age: 66
Mortality	Most recent CalPERS and STRS for the pension valuations

NOTE TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2017

Schedule of OPEB Investment Returns

This schedule presents information on the annual money weighted rate of return on OPEB plan investments. In future years, as data becomes available, ten years of information will be presented.

Schedule of Other Postemployment Benefits (OPEB) Funding Progress

This schedule is intended to show trends about the funding progress of the District's actuarially determined liability for postemployment benefits other than pensions.

Schedule of the District's Proportionate Share of the Net Pension Liability

This schedule presents information on the District's proportionate share of the net pension liability (NPL), the plans' fiduciary net positions and, when applicable, the State's proportionate share of the NPL associated with the District. In the future, as data becomes available, ten years of information will be presented.

Changes in Benefit Terms – There were no changes in benefit terms since the previous valuations for both CalSTRS and CalPERS.

Changes in Assumptions – There were no changes in economic assumptions for either the CalSTRS or CalPERS plans from the previous valuations.

Schedule of District Contributions for Pensions

This schedule presents information on the District's required contribution, the amounts actually contributed, and any excess or deficiency related to the required contribution. In the future, as data becomes available, ten years of information will be presented.

SUPPLEMENTARY INFORMATION

DISTRICT ORGANIZATION JUNE 30, 2017

MiraCosta Community College District (the District) was established in 1934 and serves an area of about 15 square miles in northern San Diego County (the County). The District includes the cities of Carlsbad, Del Mar, Encinitas, Oceanside, and Solana Beach, as well as adjacent unincorporated areas of the County. The District operates two campuses and two centers. The main campus, MiraCosta College, is located on a 121-acre site in the city of Oceanside. The District also operates the 42-acre San Elijo campus in the city of Cardiff, a 7.6 acre Community Learning Center in Oceanside, and the Technology Career Institute in Carlsbad.

NOTE TO SUPPLEMENTARY INFORMATION JUNE 30, 2017

NOTE 1 - PURPOSE OF SCHEDULES

District Organization

This schedule provides information about the District's governing board members and administration members.

Schedule of Expenditures of Federal Awards

The accompanying Schedule of Expenditures of Federal Awards includes the Federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (Part 200), *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements. The District has not elected to use the ten percent de minimis cost rate as covered in Section 200.414 Indirect (F&A) costs of the Uniform Guidance.

The following schedule provides reconciliation between revenues reported on the Statement of Revenues, Expenses, and Changes in Net Position - Primary Government and the related expenditures reported on the Schedule of Expenditures of Federal Awards.

	CFDA	
Description	Number	Amount
Total Federal Revenues From the Statement of Revenues, Expenses,		
and Changes in Net Position:		\$ 21,637,470
Federal Supplemental Educational Opportunity Grants	84.007	250
Federal Work Study Administrative Allowance	84.033	(17,356)
Federal Pell Grant Administration	84.063	(7,272)
Total Expenditures of Federal Awards		\$ 21,613,092

Schedule of Expenditures of State Awards

The accompanying Schedule of Expenditures of State Awards includes the State grant activity of the District and is presented on the modified accrual basis of accounting. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements. The information in this schedule is presented to comply with reporting requirements of the California State Chancellor's Office.

Schedule of Workload Measures for State General Apportionment

FTES is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of State funds, including restricted categorical funding, are made to community college districts. This schedule provides information regarding the annual attendance measurements of students throughout the District.

NOTE TO SUPPLEMENTARY INFORMATION JUNE 30, 2017

Reconciliation of Education Code Section 84362 (50 Percent Law) Calculation

ECS 84362 requires the District to expend a minimum of 50 percent of the unrestricted General Fund monies on salaries of classroom instructors. This is reported annually to the State Chancellor's Office. This schedule provides a reconciliation of the amount reported to the State Chancellor's Office and the impact of any audit adjustments and/or corrections noted during the audit.

Reconciliation of Annual Financial and Budget Report (CCFS-311) With Fund Financial Statements

This schedule provides the information necessary to reconcile the fund balance of all funds reported on the Form CCFS-311 to the District's internal fund financial statements.

Proposition 30 Education Protection Act (EPA) Expenditure Report

This schedule provides the District's summary of receipts and uses of the monies received through the EPA.

Reconciliation of Governmental Funds to the Statement of Net Position

This schedule provides a reconciliation of the adjustments necessary to bring the District's internal fund financial statements, prepared on a modified accrual basis, to the entity-wide full accrual basis financial statements required under GASB Statements No. 34 and No. 35 business-type activities reporting model.

INDEPENDENT AUDITOR'S REPORTS

VALUE THE difference

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Trustees MiraCosta Community College District Oceanside, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and the aggregate remaining fund information of MiraCosta Community College District (the District) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 15, 2017.

Emphasis of Matter - Change in Accounting Principles

As discussed in Notes 2 and 18 to the financial statements, in 2017, the District adopted new accounting guidance, GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. Our opinion is not modified with respect to this matter.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Rancho Cucamonga, California

Variner Tune Day of Co. L.P.

December 15, 2017

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Board of Trustees MiraCosta Community College District Oceanside, California

Report on Compliance for Each Major Federal Program

We have audited MiraCosta Community College District's (the District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major Federal programs for the year ended June 30, 2017. The District's major Federal programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with the Federal statutes, regulations, and the terms and conditions of its Federal awards applicable to its Federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major Federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major Federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2017.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major Federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major Federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON STATE COMPLIANCE

Board of Trustees MiraCosta Community College District Oceanside, California

Report on State Compliance

We have audited MiraCosta Community College District's (the District) compliance with the types of compliance requirements as identified in the California Community Colleges Chancellor's Office *District Audit Manual* issued in March 2017 that could have a direct and material effect on each of the District's programs as noted below for the year ended June 30, 2017.

Management's Responsibility

Management is responsible for compliance with the requirements of State laws and regulations, and the terms and conditions identified in the California Community Colleges Chancellor's Office *District Audit Manual* issued in March 2017.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance of each of the District's State programs based on our audit of the types of compliance requirements referred to above. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the standards and procedures identified in the California Community Colleges Chancellor's Office *District Audit Manual* issued in March 2017. These standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above could have a material effect on the applicable programs noted below. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such procedures as we consider necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the District's compliance with those requirements.

Unmodified Opinion for Each of the Programs

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that are applicable to the programs noted below that were audited for the year ended June 30, 2017.

In connection with the audit referred to above, we selected and tested transactions and records to determine the District's compliance with State laws and regulations applicable to the following:

Section 421	Salaries of Classroom Instructors (50 Percent Law)
Section 423	Apportionment for Instructional Service Agreements/Contracts
Section 424	State General Apportionment Funding System
Section 425	Residency Determination for Credit Courses
Section 426	Students Actively Enrolled
Section 427	Dual Enrollment of K-12 Students in Community College Credit Courses
Section 428	Student Equity
Section 429	Student Success and Support Program (SSSP)
Section 430	Schedule Maintenance Program
Section 431	Gann Limit Calculation
Section 435	Open Enrollment
Section 439	Proposition 39 Clean Energy
Section 440	Intersession Extension Programs
Section 475	Disabled Student Programs and Services (DSPS)
Section 479	To Be Arranged Hours (TBA)
Section 490	Proposition 1D and 51 State Bond Funded Projects
Section 491	Proposition 55 Education Protection Account Funds

The District reports no Instructional Service Agreements/Contracts for Apportionment Funding; therefore, the compliance tests within this section were not applicable.

The District did not expend Proposition 39 Clean Energy funds during the fiscal year; therefore, the compliance tests within this section were not applicable.

The District reports no Intersession Extension Programs; therefore, the compliance tests within this section were not applicable.

The District reports no attendance within classes subject to the TBA Hours; therefore, the compliance tests within this section were not applicable.

The District did not receive any funding through Proposition 1D and 51 State Bond Funded Projects; therefore, the compliance tests within this section were not applicable.
