

The impact of a Thank You Letter

Donors do not select scholarship recipients; therefore, they do not know anything about the student until they receive a thank you letter.

Taryn shared a letter she received from her donor (Mrs. Argyros) responding to the scholarship thank you letter she sent.

“I received this in the mail in response to my thank you letter. It really did surprise me to open it and made me very happy that she (Mrs. Argyros) knew how much her donation helped in my education endeavors. Really made my day. I love pursuing my goal in nursing and I love being a part of our program. I was very fortunate to receive her donation; it was important for me that she see how much it helped myself/family to keep moving forward.” Taryn

Dear Taryn,

Thank you for taking the time to send me such a wonderful note. We don't often receive such nice acknowledgements, and I want you to know how much your letter meant to me.

I can tell from your words that you are an amazing example of why supporting our nurses programs is so important. Nurses give care and love to everyone they touch. We could not be happier that our donation is assisting such a deserving individual such as yourself.

Taryn, your dedication to your education is truly inspiring. Continue to dream big dreams and I wish you great strength in your journey. We are counting on you!

Yours truly,

Julia Argyros
