LGBTQ on Campus for Students

Learn to create a more supportive campus culture for LGBTQ Students. In this virtual environment you'll engage in a series of game-based exercises, including a role-play conversation with fully animated and emotionally responsive virtual students to better understand how to:

- address discriminatory language;
- respond supportively when a peer comes out as LGBTQ;
- approach and refer a peer who may be distressed and need additional support.

1) Begin at **ccc.kognito.com**

2) Create an account when prompted: "Don't have an account? **Click here**."

3) Enter your information and under **Choose your Training POV** select **Student/RA**

4) After creating an account click on **LGBTQ on Campus for Students** to begin the training. If you have time, feel free to complete the other two trainings as well.

Online training courses are made available to all California community colleges through the **CCC Student Mental Health Program,** a partnership between the **Chancellor's Office** and the **Foundation for California Community Colleges** (FCCC) funded through a grant from the **California Mental Health Services Authority** (CalMHSA).
